DETAILED ACTION

Response to Arguments

1. Applicant's arguments (8/18/06 Remarks: page 9, line 1 - page 11, line 9) with respect to the rejections of claims 1-5, 9-10, & 15-16 under 35 USC §102 and the rejection of claim 11 under 35 USC §112 have been considered and found persuasive. Therefore, these rejections have been withdrawn. (The objection to claims 6-8, while not specifically addressed by Applicant, is withdrawn for the same reason as the rejection of parent claim 1.)

However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC §101.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 19-23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 19-23 are drawn to functional descriptive material (a computer program) stored on a computer readable medium (i.e., "data structures and computer programs which impart functionality when employed as a computer component" at MPEP 2106.IV.B(1)). However, the computer program itself merely

Art Unit: 2625

manipulates data or an abstract idea, or merely solves a mathematical problem without a limitation to a practical application in the technological arts.

Examiner suggests amending the claims so that they are clearly drawn to the computer readable medium (e.g. "A computer readable medium encoded with a computer program...").

Allowable Subject Matter

4. Claims 1-11, 15-16, & 24 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

As noted above, Applicant's arguments (8/18/06 Remarks: page 9, line 1 - page 11, line 9) with respect to the rejections of claims 1-5, 9-10, & 15-16 under 35 USC §102 and the rejection of claim 11 under 35 USC §112 have been considered and found persuasive.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this

Art Unit: 2625

action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
